Canasil Launches New Website Covering Silver-Gold-Copper Discovery Program In Mexico and British Columbia Canada

Vancouver, July 14, 2021 - Canasil Resources Inc. (**TSX-V: CLZ**, DB Frankfurt: 3CC, “Canasil” or the “Company”) announces that the newly designed website covering the Company’s Silver-Gold-Copper discovery program in Mexico and British Columbia, Canada, is now on line. The website can be viewed at:

<https://www.canasil.com>

A preview of the Home Page is included below for reference.

About Canasil:

Canasil is a Canadian mineral exploration company with an excellent portfolio of 100% owned silver, gold, copper, zinc and lead exploration projects in Durango and Zacatecas States, Mexico, and in British Columbia, Canada. The Company is focused on identifying large mineralized systems with the potential for hosting significant mineral deposits on recognized mineral trends with excellent access and infrastructure and close to operating mines. Several of the Company’s projects have had extensive exploration to date, including drill testing, presenting multiple opportunities for discovery and value creation.

Our corporate objective is to enhance shareholder value by increasing the value of the Company’s mineral properties through cost effective and responsible exploration and development. The Company’s directors and management have experienced mineral exploration backgrounds with consistent track records of identifying and advancing successful mineral exploration projects. The Company is actively engaged in the exploration of its mineral properties, and maintains an operating subsidiary in Durango, Mexico, with full time geological and support staff for its operations in Mexico.

The website includes certain statements that may be deemed to be “forward-looking statements”. All statements in the website, other than statements of historical facts are forward looking statements, including statements that address future mineral production, reserve potential, exploration drilling, exploitation activities and events or developments. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results or developments may differ materially from those in the forward-looking statements. Factors that could cause actual results to differ materially from those in forward-looking statements include, but are not limited to, changes in commodities prices, exploration successes, continued availability of capital and financing, and general economic, market or business conditions. The reader is referred to the Company’s filings with the Canadian securities regulators for disclosure regarding these and other risk factors. There is no certainty that any forward looking statement will come to pass and investors should not place undue reliance upon forward-looking statements.

Mexico Projects

Canasil holds a 100%-interest in six mineral exploration projects in Durango and Zacatecas States, Mexico: La Esperanza, Salamandra, Nora, Colibri, Carina, and Vizcalno. These projects target large high grade silver-gold and base metal systems and are located within a recognized silver-gold trend hosting major historic and world-class producing mines and deposits.

BC, Canada Projects

Canasil holds a 100% interest in four Copper-Gold-Silver projects in British Columbia, Canada: Brenda, Vega, Lil and Granite. These projects are located on the prolific Quesnel-Stikine Terrane, a recognized mineralized trend extending through central British Columbia hosting major copper-gold mines and deposits. They provide a platform for copper-gold, silver and gold discovery in highly prospective and active regions.
